MESSAGE FROM THE CHAIRMAN

In the Name of God the Merciful the Compassionate,,,

On behalf of my colleagues, members of the Board of Directors, I have the pleasure to extend my sincere thanks and gratitude to you for attending the 21st Annual Ordinary General Assembly Meeting of the Jordan Loan Guarantee Corporation (JLGC), and I am pleased to present for you the Annual Report for the year 2014, that highlights the achievements during the year, including the financial statements and the external auditor's report for the year ended 31/12/2014.

Honorable Shareholders,

The Central Bank of Jordan balances between its role as a monetary authority: responsible for achieving financial and monetary stability in the kingdom, and supporting sustainable economic growth.

The Central Bank of Jordan extends special efforts to support financing for economic sectors with a high local added value, focusing on the small and medium sized enterprises. In addition to JLGC Establishment and the follow up to develop its operational activities and enforce its efforts, the Central Bank of Jordan availed special financing programs to local manufacturing, tourism and renewable energy sectors at interest rates and terms aligned with the financing needs that goes up to 5% of the outstanding portfolio for each bank.

CBJ also exerted significant efforts to mobilize special credit lines for SMEs through the licensed banks in the kingdom. Jordan utilized a special loan from the World Bank (WB) totaling US 70\$ Million for the local banks on-lend for small and medium size enterprises. Another credit line with similar terms amounting US50 \$ Million from the Arab Fund for Economic and Social Development (AFESD), followed by another credit line totaling US 100\$ from AFESD given the successful utilization of the previous lines of credit.

Moreover, CBJ is working currently with the European Bank for Reconstruction and Development (EBRD) to finalize the terms of reference (TOR) for another line of credit totaling US 150 \$ Million for the same purpose. The central bank offered full support and facilities to the banks to benefit from this line of credit with proper costs and tenors.

Dear Shareholders,

By the end of this year, JLGc enters its 21st year while it is still paying most of its concern to achieve the goals for which it had been established, aiming to reach all the economic sectors with high efficiency. JLGc continues its cooperation with the Jordanian banks to encourage financing to small and medium sized projects. The corporation provided guarantees for 824 productive loans for SMEs with a nominal value of JD 32 million during 2014 and also guaranteed 1219 export shipments and domestic sales within the export credit guarantee program worth JD 52 million.

In terms of the financial performance, the financial statements show that the Corporation achieved total revenues of JD 1.755 million during 2014, compared with JD 1.673 million in 2013. The Corporation made a net profit of JD 420,336 thousand in 2014, compared with a net profit of JD 419,696 thousand in 2013. Total shareholders' equity reached JD 14,5 million in 2014 compared to JD 14,4 million in 2013, and total assets reached JD 25,947 million by the end of 2014 compared to JD 24.787 million a year earlier.

Dear Shareholders,

The corporation is keen to develop and expand its services in all levels in collaboration with main partners of the public and private sectors. Particularly, financial institutions that showed a great response to the development efforts of the Corporation that enabled JLGc to achieve a clear growth in the volume of its operations.

At the conclusion of my message, please allow me to extend on your behalf my deepest thanks to my colleagues; the members of the Board of Directors. I also would like to extend my appreciation to the Director General and the staff of JLGc for the efforts exerted throughout the year to accomplish the goals of the Corporation. May God almighty grant further progress to keep our beloved country prosperous under the guidance of His Majesty King Abdullah II may God protect him.

May God's peace and mercy and blessings be upon you,,,

Dr. Maher "Sheikh Hasan"
Chairman of the Board

SPEECH OF THE DIRECTOR GENERAL

In the Name of God the Merciful the Compassionate,,,

In line with the rapid growth of its operational activities, Jordan Loan Guarantee Corporation (JLGC) continued enhancing its role in the Jordanian economy during 2014 by motivating local banks and financial institutions to direct more productive financing to SMEs, given their critical role in creating new job opportunities and reducing unemployment rates. The company also sustained supporting the national exports by providing credit guarantees to exporters against the risk of non-payment by the importers and buyers of the Jordanian goods.

Dear Shareholders

The Jordan Loan Guarantee Corporation, and through SMEs loan guarantee programs, offered guarantees to 824 productive loans with a nominal value reached to JD 32 million in 2014.

Through the Export and Domestic Credit Guarantee Programs, JLGC guaranteed 1219 shipments with a guaranteed value exceeded JD 52 million. These Shipments are distributed to 794 export shipments valued at JD 47 million, and 425 domestic sales amounted of JD 5 million. On the other hand, submitted claims for bad loans during 2014 worth JD 530 thousand, compared with JD 766 thousand in 2013. While compensations paid for bad loans during 2014 amounted JD 307 thousand, compared to JD 332 thousand in 2013. Furthermore, the company has recovered JD 354 thousand during 2014, compared with recoveries amounting to JD 129 thousand in 2013.

The company also re-scheduled defaulted loans worth JD 5.4 million in 2014, compared with re-scheduled loans that worth JD 3.3 million in 2013. Rescheduling opportunities motivated operational sustainability for entrepreneurs and give them the chance to deal with some business difficulties during 2014.

Dear Shareholders,

The total revenues of the Jordan Loan Guarantee Corp. increased by 4.9% during 2014 in comparison with 2013. The total revenues reached JD 1.755 million during 2014, compared with JD 1.673 million in 2013. The increase came from the operational revenues that increased from JD 843 thousand in 2013 to JD 874 thousand in 2014, and the growth of investment revenues from JD 829 thousand in 2013 to JD 879 thousand in 2014.

Accordingly, the company achieved a net profit of JD 420,336 thousand in 2014 compared with a net profit of JD 419,696 thousand during 2013. The results of this year came consistent with the objectives of the strategic plan that was adopted by the Board of Directors two years ago to reach the operational sustainability by 2016.

Dear Shareholders,

Allow me to express my sincere thanks and appreciation to H.E. the Chairman and to the members of the Board of Directors and to all employees of JLGK for their efforts and dedication to enable JLGK to fulfill its mandate under the wise leadership of His Majesty King Abdullah II, May God protects him.

May peace and God's mercy and blessings be with you,,,

Dr. Mohammed Al-Jafari
Director General

JLGC's Business Activities in 2014

«SMEs Financing and Loan Guarantee Programs» Conference:-

Under the patronage of H.E. Prime Minister Dr. Abdullah Ensour, Jordan Loan Guarantee Corporation (JLGC) in coordination with the Central Bank of Jordan organized its first regional conference on the 24th and 25th of November 2014 marking the 20th anniversary of its establishment entitled “SMEs Financing and Loan Guarantees” that gathered many loan guarantee corporations in the MENA and worldwide.

Ensour emphasized on the importance of the conference, which was synchronized with the government's work on preparing a 10-year economic and social plan until 2025, especially that the government is aware of the value of these projects.

The conference focused on different major topics on small- and medium-sized enterprises (SMEs) and showed various models in the MENA to exchange experiences among the bankers, experts and financiers and also giving greater attention to SMEs. It also highlighted the social and economic role of these projects and the financing challenges. On the other hand, the conference discussed the role of loan guarantees in improving access to finance and evaluation of the current programs and the ways to develop them, with an indication to the guarantee programs compatible with the Islamic Shari'a.

The two-day conference hosted international experts representing the international Finance Corporation (IFC) and the European Bank for Reconstruction and Development (EBRD) and the United States Agency for International Development (USAID), in addition to a number of high profile representatives from various Arab countries and Jordanian banks and local entities to intensify knowledge exchange on loan guarantee industry in the Middle East and North Africa region (MENA).

Signed Agreements and new Programs during 2014

The Jordan Loan Guarantee Corporation continued its efforts with partners to launch new programs. JLGC signed a number of agreements on loan guarantee and export credit with many local and international institutions. Some of the agreements came as an extension for previous plans and programs initiated in 2013.

The main agreements signed during 2014 were the followings: -

- **The Guarantee Agreement with the MOP and DEF**

The Jordan Loan Guarantee Corp. with the Ministry of Planning and International Cooperation and Development and Employment Fund signed the second annex of the guarantee agreement on the 27th February, 2014. According to this agreement the value of the loan granted by DEF increased to JD 75 thousand with a maturity up to 8 years.

Signing the annex aims to provide owners of small and medium sized enterprises (SMEs) with guarantees when they apply for funding from the Development and Employment Fund. As a result, funding the projects assists entrepreneurs to build and increase the capacity and productivity of the SMEs and benefited local communities in job creation and poverty alleviation.

- **Agreement to finance Medical Sector through “Kafala” program with IIABANK**

As part of continuing the collaboration with the Islamic International Arab Bank, Jordan Loan Guarantee Corp. signed an agreement to include financing to medical clinics, pharmacies and laboratories to “Kafala” Program, as well as, funding medical equipments and devices according to the principles of Islamic Sharia’.

The signing ceremony was under the patronage of H.E.Dr. Maher “Shiekh Hassan” Chairman of JLG and H.E. Faris Sharaf, Chairman of IIABank and attended by a number of executive managers of both parties. Dr. Mohammed Al Ja’fari, the Director General of JLG and Mr. Eyad Al Asali, the General Manager of IIABank signed the agreement and both stressed on the need for continued cooperation to support financing SMEs in the kingdom, which is a catalyst for further work and achievement that reflect directly on SMEs owners, in order to reduce unemployment, develop local communities and meet the requirements of sustainable development, further expansion and social welfare.

The company and the bank launched “Kafala’ Program in 2012 to provide guarantees for SMEs financing.

- **Memorandum of understanding with the Ministry of Justice :**

On the 3rd June, 2014 the Jordan Loan Guarantee Corporation and Ministry of Justice signed a memorandum understanding at the ministry premises. Through this memorandum JLG will be able to inquire about the cases registered in the legal courts using the national Identity number and/or name to enable the company to study the possibility of guaranteeing the borrower’s loans.

According to the agreement signed by H.E. Dr. Bassam Talhouni; Minister of Justice and H.E.Dr. Mohammed Al Ja’fari, JLG Director General, the ministry will provide the company with an electronic on-line access to the legal advertisements published in the formal daily newspapers to enable JLG to guarantee and cover the risks of loans granted by banks and financial institutions for SMEs.

- **A Guarantee Agreement with Arab Bank**

The Jordan Loan Guarantee Corporation signed an agreement on 22 June 2014 with the Arab Bank through its program for financing bundles launched to serve SMEs. The agreement was signed by Dr. Mohammed Al Ja’fari; Director General of JLG and Mr. Mohammed Mousa; Executive Vice President- Country Manager of Jordan at the Arab Bank.

According to this agreement, Arab Bank continued its cooperation with JLG to expand and diversify banking services for Small Medium Enterprises, to enable SMEs access to finance and open new future opportunities specifically for trading, industrial, services and tourism companies that seek to develop and activate their work but they lack collaterals.

The cooperation between the bank and the company is an extension and complimentary of the previous cooperation, aiming to serve a larger segments of SMEs at the kingdom under the custody of JLG.

- **A Guarantee Agreement with Bank al Etihad**

Through joint efforts, the Jordan Loan Guarantee Corporation and Bank al Etihad signed a guarantee agreement in July 2014 to expand finance for SME borrowers. Dr. Mohammed Al Ja'fari and H.E.Mrs. Nadia Al Sa'eed; General Manger for Bank al Etihad signed the agreement.

Loans covered by this agreement include industrial and services loans, craftsmen projects loans and internal trading. Plus to service loans granted for doctors, engineers, lawyers and consultants. In addition to renewable energy projects with a maturity date up to 5 years and a grace period of 6 months. The agreement aimed for financing small and medium-sized enterprises as well as facilitating procedures, terms and conditions for granting credit at competitive rates to the owners of SMEs operating in the Kingdom in different types of businesses. At the same time, it aimed at motivating investment mobility to serve national economy.

- **Cooperation Agreement with TURK EXIMBANK**

During the opening ceremony of "SMEs Financing and Loan Guarantees" conference, JLGK and TURK EXIMBANK signed co-operation agreement on the 24th of November, 2014 to share information and expertise in export credit insurance field and develop commercial and technical co-operations between the two parties.

Dr. Mohammed Al Ja'fari, the Director General of JLGK and Mr. Hayrettin KAPLAN, the General Manager of TURK EXIMBANK signed the agreement in the attendance of H.E.Dr. Maher "Sheikh Hasan" Chairman of JLGK and Mr. Mesuot GURSOY, Deputy General Manger of TURK EXIMBANK and a number of executive managers participating in the conference.

Signing the agreement came in line with JLGK corporate mandate in terms of development and upgrading the information on export credit and investment insurance. Furthermore, it focuses on sharing experiences and technical point of views on the polices and procedures followed in this context.

- **Cooperation Agreements with IIABANK**

JLGK signed two cooperation agreements with the Islamic International Arab Bank (IIABANK) to launch "Industrial Finance & services" and "Finance Lease guarantees" programs, as an extension for Kafala programs that are compatible with Islamic shari'a and developed in joint efforts between the company and the bank.

The agreements were signed during the opening ceremony of “SMEs Financing and Loan Guarantees” conference in the 24th November, 2014 by H.E.Dr. Mohammed al-Ja’fari Director-General of the Jordan Loan Guarantee Corporation and Mr. Iyad Asali Director-General of the Islamic International Arab Bank. The signing ceremony was attended by the chairmen of the company & the bank, H.E.Dr. Maher “Shiekh Hasan” & H.E. Faris Sharaf with a crowd of executive directors of the local and regional institutions participating in the conference.

The partnership between JLGC & IIABANK has been rooted since the first cooperation agreement, and the bank became one of the most important beneficiaries of the company’s programs for financing and guaranteeing small and medium sized enterprises.

INDEPENDENT AUDITORS' REPORT

To The Shareholders of Jordan Loan Guarantee Corp. Amman - Jordan

We have audited the accompanying financial statements of Jordan Loan Guarantee Corp. which comprise the statement of financial position as at 31 December 2014, the statement of income, statement of comprehensive income, statement of changes in equity and statement of cash flows for the year then ended, and a summary of significant accounting policies and other explanatory notes.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with International Financial Reporting Standards, and for such internal control as management determines is necessary to enable the presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with International Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance whether the financial statements are free from material misstatement. An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements present fairly, in all material respects, the financial position of Jordan Loan Guarantee Corp. as at 31 December 2014, and of its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards.

Report on the Legal and Regulatory Requirements

The Company maintains proper accounting records and the accompanying financial statements are in agreement therewith and with the financial data presented in the Board of Directors' report.

Jordan Loan Guarantee Corp. - Public Shareholding Company
Notes to the Financial Statements 31 December 2014
(In Jordanian Dinar)

1. General

Jordan Loan Guarantee Corp. is a public shareholding company incorporated on 26 March 1994. The company was formed as successor to the Loan Guarantee Project as result of the Council of ministers' decision that transferred all accounts and assets of the project to the Central Bank of Jordan in preparation for the establishment of a public shareholding company for loan guarantee. The Company head office is in the Hashemite Kingdom of Jordan.

The company's goals include providing guarantees to fully or partially cover loans of different types, granted by banks and financial institutions for the establishing, expanding, and raising the productive and marketing capacity of economic projects with the aim of creating job opportunities and securing possibilities for earning or saving foreign reserves. The company's goals also include extending guarantees required to cover risks in the field of Jordanian export sector.

These financial statements were authorized for issue by the Company's Board of Directors in their meeting held on 28 January 2015 and it is subject to the General Assembly approval.

2. Significant Accounting Policies

Basis of preparation

The financial statements of the Company have been prepared in accordance with International Financial Reporting Standards.

The financial statements have been prepared on a historical cost basis except for financial assets at fair value.

The financial statements are presented in the Jordanian Dinar which is the functional currency of the Company.

The accounting policies are consistent with those used in the previous year.

Adoption of new and revised IFRS standards

A number of new and revised standards are effective for annual periods beginning on 1 January 2014. Information on these new standards is presented below.

Standard	Title of Standards
IFRS 10,12 and IAS 27	Investment entities (Amendments)
IAS 32	Offsetting financial assets and financial liabilities (Amendments)
IAS 36	Recoverable amount disclosures for non-financial assets (Amendments)
IAS 39	Novation of derivatives and continuation of hedge accounting (Amendments)

The following standards have been published that are mandatory for accounting periods after 31 December 2014.

Standard	Title of Standards
IFRS 11	Accounting for acquisitions of interests in joint operations (Amendments)
IFRS 15	Revenue from contracts with customers

Management anticipates that the adoption of new and revised Standards will have no material impact on the financial statements of the Company.

Use of Estimates

The preparation of the financial statements requires management to make estimates and assumptions that affect the reported amount of financial assets and liabilities and disclosure of contingent liabilities. These estimates and assumptions also affect the revenues, expenses and the provisions. Such estimates are necessarily based on assumptions about several factors involving varying degrees of judgment and uncertainty and actual results may differ resulting in future changes in such provisions.

Management reviews periodically the tangible assets in order to assess the depreciation for the year based on the useful life and future economic benefits. Any impairment is taken to the statement of income.

Cash and Cash Equivalents

Cash and cash equivalents are carried in the statement of financial position at cost. For the purposes of the cash flow statement, cash and cash equivalents comprise cash on hand, deposits held at call with banks, other short - term highly liquid investments.

Financial Instruments

Under IFRS (9), financial assets at initial recognition are measured at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss is expensed in the income statement.

Debt investments are measured at amortized cost only if both of the following criteria are met: the objective of the Company's business model is to hold the asset to collect the contractual cash flows; and the contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal outstanding.

If either of the two criteria above is not met, debt investments are measured at fair value through profit or loss.

All equity investments are measured at fair value. Equity investments that are held for trading are measured at fair value through profit or loss. For all other equity investments, the Company can make an irrevocable election at initial recognition to recognize changes in fair value through other comprehensive income rather than profit or loss. If this election is made, all fair value changes, excluding dividends that are a return on investment, will be reported in other comprehensive income. There is no recycling of amounts from other comprehensive income to profit and loss on sale of investments – or are there any impairment requirements. However, the Company may transfer the cumulative gain or loss within equity.

Jordan Loan Guarantee Corp.

Notes to the Financial Statements (continued)

31 December 2014

Trading and settlement date accounting

Purchases and sales of financial assets are recognized on the trade date, i.e. the date on which the Company commits its self to purchase or sell the asset.

Fair value

For fair value of investments, which are traded in organized financial markets, is determined by reference to the quoted market bid price at the close of the business on the statement of financial position date. For investments which are listed in inactive stock markets, traded in small quantities or have no current prices, the fair value is measured using the current value of cash flows or any other method adopted. If there is no reliable method for the measurement of these investments, then they are stated at cost less any impairment in their value.

Property and equipment

Property and equipment are stated at cost less accumulated depreciation and accumulated impairment loss. When assets are sold or retired, their cost and accumulated depreciation are eliminated from the accounts and any gain or loss resulting from their disposal is included in the statements of income.

The initial cost of property, plant and equipment comprises its purchase price, including import duties and non-refundable purchase taxes and any directly attributable costs of bringing the asset to its working condition and location for its intended use. Expenditures incurred after property, plant and equipment have been put into operation, such as repairs and maintenance and overhaul costs, are normally charged to income in the period the costs are incurred. In situations where it can be clearly demonstrated that the expenditures have resulted in an increase in the future economic benefits expected to be obtained from the use of an item of property, plant and equipment beyond its originally assessed standard of performance, the expenditures are capitalized as an additional cost of property, plant and equipment.

Depreciation is computed on a straight-line basis using the following annual depreciation rates:

Buildings	2%
Furniture & fixtures	10-20%
Vehicles	15%
Computers & software	20%

The useful life and depreciation method are reviewed annually to ensure that the method and period of depreciation are consistent with the expected pattern of economic benefits from items of property, plant and equipment.

Accounts payable

Liabilities are recognized for amounts to be paid in the future for goods or services received, whether billed by the supplier or not.

Provisions

Provisions are recognized when the Company has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation, and a

reliable estimate of the amount can be made. Where the Company expects a provision to be reimbursed, for example under an insurance contract, the reimbursement is recognized as a separate asset but only when the reimbursement is virtually certain.

Provision for end of service indemnity

The provision for end of service indemnity is calculated based on the contractual provisions of the employment.

Offsetting

Financial assets and financial liabilities are offset and the net amount reported in the statement of financial position when there is a legally enforceable right to offset the recognized amounts and the company intends to either settle them on a net basis, or to realize the asset and settle the liability simultaneously.

Revenues

Commissions on loan guarantees are recognized annually on the ceilings or guaranteed portion of loans-granted by banks and financial institutions according to guarantee type.

Commissions on post-shipment export credit guarantees are recognized annually on the guaranteed export amount after deducting the reinsurance Company share.

Interest is recognized on a time proportion basis that reflects the effective yield on the assets.

Revenue is recognized when it is probable that the economic benefits associated with the transaction will flow to the company and the amount of revenue can be measured reliably.

Dividends are recognized when the company's right to receive payment is established.

Income tax

Income tax expenses represent accrued taxes and deferred taxes.

Income tax expenses are accounted for on the basis of taxable income. Taxable income differs from income declared in the financial statements because the latter includes non-taxable revenues or disallowed taxable expenses in the current year but deductible in subsequent years, accumulated losses acceptable by the tax law, and items not accepted for tax purposes or subject to tax.

Taxes are calculated on the basis of the tax rates according to the prevailing laws, regulations, and instructions of the countries where the Company operates.

Deferred taxes are taxes expected to be paid or recovered as a result of temporary timing differences between the value of the assets and liabilities in the financial statements and the value of the taxable amount. Deferred tax is calculated on the basis of the liability method in the statement of financial position according to the rates expected to be applied when the tax liability is settled or tax assets are recognized. Deferred tax assets are reviewed at the date of the statement of financial position, and reduced in case it is expected that no benefit will arise therefore, partially or totally.

Foreign Currency

Assets and liabilities denominated in foreign currencies are translated to Jordanian Dinar using the prevailing exchange rates at year end. Foreign currency transactions during the year are recorded using exchange rates that were in effect at the dates of the transactions. Foreign exchange gains or losses are reflected in the statement of income.

11. Provisions against loans guarantee

During 2014 the Board of Directors has adjusted the basis of calculating provisions against loans guarantee to reflect the estimated risk against guaranteed loans, where the general provision is computed at 1% of the guaranteed productive and housing loans and 3% of the average daily guaranteed portion of export credit for the last three months. The special provision is computed against loans defaulted for more than (180) days for productive and housing loans.

The excess in provisions resulted from the new estimates have been transferred to restricted special provision.

The breakdown of provisions for loans guarantee presented in the statement of financial position is as follows:

	2014	2013

24. Financial Instruments

Financial instruments comprise financial assets and financial liabilities. Financial assets of the Company include cash and cash equivalents, financial securities and receivables. Financial liabilities of the Company include Central Bank of Jordan loan, accounts payable and ministry of planning deposit.

Fair Value

The fair values of the financial assets and liabilities are not materially different from their carrying values as most of these items are either short-term in nature or re-priced frequently.

Financial assets and financial liabilities measured at fair value in the statement of financial position are grouped into three levels of a fair value hierarchy. The three levels are defined based on the observability of significant inputs to the measurement, as follows:

- **Level 1:** quoted prices (unadjusted) in active markets for identical assets or liabilities.
- **Level 2:** inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly or indirectly.
- **Level 3:** unobservable inputs for the asset or liability.

	423,052	-	250,000	673,052

Jordan Loan Guarantee Corp.

Notes to the Financial Statements (continued)

31 December 2014

Financial assets included in level 3 are stated at cost less impairment charges, as the fair value of these assets cannot be measured reliably due to the lack of available active markets for identical assets.

Credit Risk

Credit risk arises principally from banks deposits and loans granted to the financial institutions to refinance housing loans. The Company limits its credit risk by adopting conservative lending standards and setting limits to its customers, noting that the Company does not bear any loss arising from any default in the refinanced loans, as it is carried out in full by the financial institutions. The maximum exposure to credit risk is represented by the carrying value of each financial asset.

Liquidity Risk

Liquidity risk is the risk that the Company will not be able to meet its net financial obligation. In this respect, the Company's management diversified its funding sources, and managed assets and liabilities taking into consideration liquidity and keeping adequate balances of cash, and cash equivalents and quoted securities.

Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will affect the Company's income or the value of its holdings of financial instruments, interest rates ranging from 4% to 5% annually. To avoid this risk, the company's deposits are short term and have fixed interest rates, if interest rates had increased or decreased by 0.5% annually the net result for the year would have been reduced / increased by JOD 27,980 during 2014 (2013: JOD 13,085).

Jordan Loan Guarantee Corp.

Notes to the Financial Statements (continued)

31 December 2014

Currency Risk

The management considers that the Company is not exposed to significant currency risk. The majority of their transactions and balances are in either Jordanian Dinar or US Dollar. As the Jordanian Dinar is pegged to the US Dollar, balances in US Dollar are not considered to represent significant currency risk and the Company's results or equity to movements in exchange rates is not considered significant.

Equity Price Risk

Equity price risk result from the change in the fair value of equity securities. The Company manages these risks through the diversification of investments in several geographical areas and economic sectors. If the quoted market price of listed equity securities had increased or decreased by 10%, the comprehensive income for the year would be increased / reduced by JOD 42,429 during 2014 (2013: JOD 33,803).

25. Capital Management

The Company manages its capital structure with the objective of safeguarding the entity's ability to continue as a going concern and providing an adequate return to shareholders.
