Report on Review of Interim Condensed Financial Statements To The Board of Directors of Jordan Loan Guarantee Corporation (Public Shareholding Company) <u>Amman - Jordan</u>

Introduction

We have reviewed the interim condensed financial statements of Jordan Loan Guarantee Corporation (the "Company") as of 30 September 2024, which comprise the interim condensed statement of financial position as at 30 September 2024, and the related interim condensed statement of income, interim condensed statement of comprehensive income, interim condensed statement of cash flows for the nine-months period then ended and explanatory notes. Board of directors is responsible for the preparation and fair presentation of these interim condensed financial statements in accordance with International Accounting Standards No. (34) "Interim Financial Reporting". Our responsibility is to express a conclusion on these interim condensed financial statements based on our review.

Scope of review

We conducted our review in accordance with International Standard on Review Engagements (2410) "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of Interim financial information consists of making inquiries, primarily of persons responsible for the financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed financial statements are not prepared, in all material respects, in accordance with IAS (34).

Other matter

The financial statements of the Company for the year ended 31 December 2023 and the interim condensed financial statements for the period ended 30 September 2023 were audited and reviewed by another auditor who expressed an unqualified opinion and conclusion on them on 14 February 2024 and 30 October 2023, respectively.

Amman – Jordan 29 October 2024

(1) GENERAL

Jordan Loan Guarantee Corporation was established as a Public Shareholding Company on 26 March 1994 as a result of the transfer of the loans guarantee project, under the Council of Ministers' decision, according to which all accounts and assets of the project were transferred to the Central Bank of Jordan in order to establish a public shareholding company to guarantee loans under the number (242). The Company is registered in Amman- The Hashemite Kingdom of Jordan.

The principal objective of the Company is to provide the necessary guarantees to cover the loans granted by banks and financial institutions with various terms and types, full or partial coverage for establishing economic projects or expanding them and to raise their production and marketing efficiency in order to create job opportunities or provide the capabilities of earning or saving foreign currencies. As well as providing the necessary guarantees to cover risks in the field of Jordanian exports financing and in any other economic sector in general and in any sector or field that achieves the interest of the company in particular.

These interim condensed financial statements were authorized for issuance by the Board of Directors on 29 October 2024.

(2-1) BASIS OF PREPARATION AND ACCOUNTING POLICIES

The interim condensed financial statements for the nine months ended on 30 September 2024 have been prepared in accordance with IAS number (34) "Interim Financial Reporting".

The interim condensed financial statements have been prepared under the historical cost convention except for the financial assets which are appearing in their fair value through other comprehensive income.

The interim condensed financial statements are presented in the Jordanian Dinar which is also the functional currency used by the Company.

The interim condensed financial statements do not comprise all the information and disclosures required for financial statements prepared in accordance with the International Financial Reporting Standards, and should be read in conjunction with the annual financial statements as of 31 December 2023. In addition, results of the nine-month period ended 30 September 2024 are not necessarily indicative of the results expected for the financial year ending 31 December 2024.

(2-2) CHANGES IN ACCOUNTING POLICIES

The accounting policies adopted in the preparation of the interim condensed financial statements are consistent with those used in the preparation of the annual financial statements for the year ended 31 December 2023 except for the adoption of new amendments on the standards effective as of 1 January 2024:

SUPPLIER FINANCE ARRANGEMENTS - AMENDMENTS TO IAS 7 AND IFRS 7

In May 2023, the IASB issued amendments to IAS 7 Statement of Cash Flows and IFRS 7 Financial Instruments: Disclosures to clarify the characteristics of supplier finance arrangements and require additional disclosure of such arrangements. The disclosure requirements in the amendments are intended to assist users of financial statements in understanding the effects of supplier finance arrangements on an entity's liabilities, cash flows and exposure to liquidity risk.

The transition rules clarify that an entity is not required to provide the disclosures in any interim periods in the year of initial application of the amendments. As a result, the amendments had no material impact on the Company's interim condensed financial statements.

AMENDMENTS TO IFRS 16: LEASE LIABILITY IN A SALE AND LEASEBACK

In September 2022, the IASB issued amendments to IFRS 16 to specify the requirements that a seller-lessee uses in measuring the lease liability arising in a sale and leaseback transaction, to ensure the seller-lessee does not recognise any amount of the gain or loss that relates to the right of use it retains.

The amendments had no material impact on the Company's interim condensed financial statements.

AMENDMENTS TO IAS 1: CLASSIFICATION OF LIABILITIES AS CURRENT OR NON-CURRENT

In January 2020 and October 2022, the IASB issued amendments to paragraphs 69 to 76 of IAS 1 to specify the requirements for classifying liabilities as current or non-current. The amendments clarify:

- What is meant by a right to defer settlement,
- That a right to defer must exist at the end of the reporting period,
- That classification is unaffected by the likelihood that an entity will exercise its deferral right,
- That only if an embedded derivative in a convertible liability is itself an equity instrument, would the terms of a liability not impact its classification.

In addition, a requirement has been introduced whereby an entity must disclose when a liability arising from a loan agreement is classified as non-current and the entity's right to defer settlement is contingent on compliance with future covenants within twelve months.

The amendments had no material impact on the Company's interim condensed financial statements.
